

Basic table test

Default table no styles

Simple Cell 1.1 Simple Cell 1.2 Simple Cell 1.3
Simple Cell 2.1 Simple Cell 2.2 Simple Cell 2.3

Table with style border:2px solid black

Simple Cell 1.1	Simple Cell 1.2	Simple Cell 1.3
Simple Cell 2.1	Simple Cell 2.2	Simple Cell 2.3

Table with style border-collapse:collapse

Simple Cell 1.1	Simple Cell 1.2	Simple Cell 1.3
Simple Cell 2.1	Simple Cell 2.2	Simple Cell 2.3

Table with attribute border="5" and style border-collapse:collapse and empty cell

Simple Cell 1.1	Red border cell	
Simple Cell 2.1	Simple Cell 2.2	Simple Cell 2.3

Complex tables

Complex 1: borders and colors

- I. Table with styles:
 - border-spacing: 30px
 - border-width: 15px
 - background-color
 - different color borders
- II. Rows and cells with styles:
 - border-width
 - background-color
 - different color borders
- III. (This is an ordered list with nested unordered lists, by the way.)

<div>Cell 1.1 with various border colors</div>	<div>Cell 1.2 A. ListItem 1 B. ListItem 2 WithOneLaaaaaaaaargeWord</div>	<div>Cell 1.3 containing just normal words to fill the contents of this cell.</div>	<div>Cell 1.4 containing just normal words to fill the contents of this cell.</div>
<div>Cell 2.1 with 10px green border</div>	<div>Cell 2.2 A. Green border B. 20px WithOneLaaaaaaaaargeWord</div>	<div>Cell 3 containing just normal words to fill the contents of this cell.</div>	<div>Cell 3 containing just normal words to fill the contents of this cell.</div>

Complex 2: header, footer, caption and alignment

Table with styles:

- repeat-header:yes
- repeat-footer:yes
- margin:50px

Note: repeat-header and repeat-footer are NOT real CSS attributes, but only work in combination with this XMLWorker. These two styles are used by iText to repeat headers and footers of large tables that are split over several pages.

Different row types:

- header
- body
- footer
- caption

Cells with styles

- padding
- text-align
- vertical-align

Header 1,1	Header 1,2	Header 1,3	Header 1,4
Header 2,1	Header 2,2	Header 2,3	Header 2,4
Cell 1,1 Let's push Row 3 to the next page	Cell 1,2 with some content	Cell 1,3 with some content	Cell 1,4 with some content
Cell 2,1 I'll help. Push! PUSH!	Cell 2,2 I'm at the top!	Cell 2,3 I'm down :(Cell 2,4 Weirdo's I'll hide up here
Cell 3,1 with larger padding	Cell 3,2	Cell 3,3 Centered	Cell 3,4 I'm always right
Cell 4,1	Cell 4,2	Cell 4,3	Cell 4,4
Footer 1,1	Footer 1,2	Footer 1,3	Footer 1,4
Footer 2,1	Footer 2,2	Footer 2,3	Footer 2,4

This is the caption of this table

Complex 3: colspan and rowspan

Cells with attributes:

- rowspan
- colspan

Cell 1,1	Cell 1,2	Cell 1,3	Cell 1,4	Cell 1,5
Cell 2,1 and 2,2 (colspan 2)		Cell 2,3	Cell 2,4	Cell 2,5 3,5 and 4,5 (rowspan 3)
Cell 3,1	Cell 3,2	Cell 3,3 and 4,3 (rowspan 2)	Cell 3,4	
Cell 4,1 4,2 5,1 5,2 (colspan 2, rowspan 2)			Cell 4,4	
		Cell 5,3 5,4 and 5,5 (colspan 3)
